

- Escriu un **nombre enter més gran o igual que 1** a cada cercle buit.
- En una mateixa **filera** no hi pot haver dos nombres iguals.
- Els nombres d'una filera **augmenten sempre la mateixa quantitat**, començant per una de les puntes.

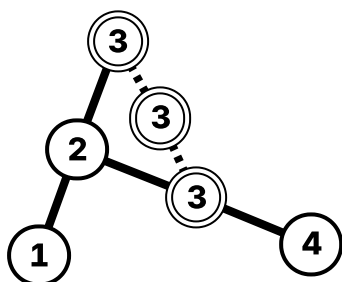

Exemple

Solució

En una mateixa filera no hi pot haver dos nombres iguals

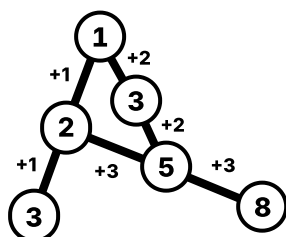

×

La filera de punts (doble vora) té el 3 tres vegades.

Compte! No es pot fer servir el 0.
Hi pot haver nombres de dues xifres o més.

Els nombres d'una filera augmenten sempre la mateixa quantitat, començant per una de les puntes

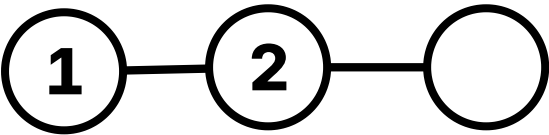

- 1, 2, 3: augmenten d'1 en 1.
- 1, 3, 5: augmenten de 2 en 2.
- 2, 5, 8: augmenten de 3 en 3.

Amb el retolador

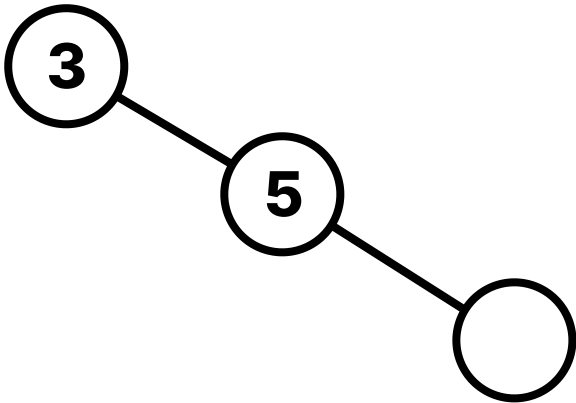

- Escriu **un nombre a cada cercle buit**, ben gros.
- Si t'ajuda, escriu al costat de cada tram quant augmenta (+2, +3...), com a l'exemple de dalt.
- Per esborrar, fes servir un drap o un mocador de paper. No hi escriguis mai amb retolador permanent!

Escriu un nombre a cada cercle buit: a cada **filera**, han d'**augmentar sempre igual**.
