

- Divideix la figura en **rectangles**, seguint les línies de la quadrícula.
- Cada rectangle ha de tenir un dels **nombres de quadrets** de la llista.

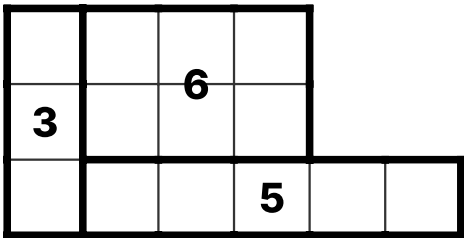

Exemple: 3, 5 i 6 quadrets

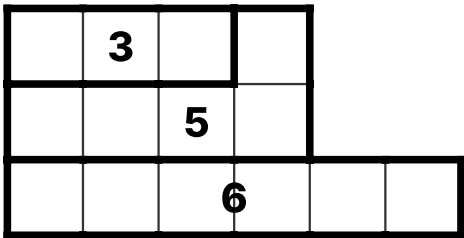

Solució

Divideix-la en rectangles seguint les línies de la quadrícula

Tots són rectangles.

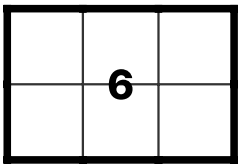

La peça del mig no és un rectangle.

Cada rectangle ha de tenir un dels nombres de quadrets indicats

3 quadrets

6 quadrets

5 quadrets

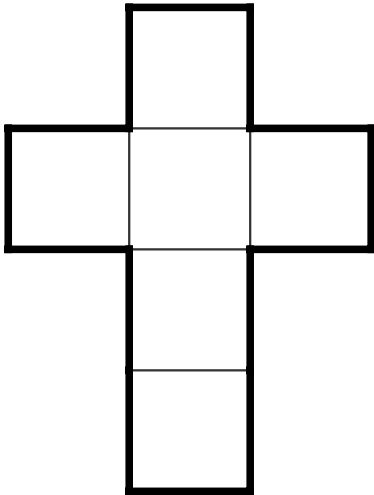

Amb el retolador

- Repassa **per sobre de les línies de la quadrícula** on vulguis tallar la figura.
- Escriu a dins de cada rectangle quants quadrets té, i ratlla aquest nombre a la llista de dalt.
- Per esborrar, fes servir un drap o un mocador de paper. No hi escriguis mai amb retolador permanent!
